

# Two Colour Label Printing Systems

## XC Q4 / XC Q6.3

(GHS) Global Harmonized System of Classification & Labelling of Chemicals

For two-color printing : Two in-line arranged thermal transfer print - units used for printing one label simultaneously with two colors. Due to ribbon saver at one print unit, the ribbon consumption of the additional colored ribbon is reduced. XC Q series meets the conditions for the Classification and Labeling Inventory according to GHS. Large label rolls upto diameter of 300 mm can be converted.
